Signs to watch for:

- **Loss of skills** - ex: a child who was potty trained but is now having repeated accidents.
- **Changes in eating, sleeping or mood** that last longer than a couple weeks.
- **Difficult behavior** at home or school.
- **Trouble adapting to change** such as the loss of a loved one or moving to a new home.

How long have you been with Reach-Up? 6 years
Fun Fact about you:

I secretly love building LEGO.

Most exciting part of your job? Seeing kids, families and staff realize they can do things differently.

Least favorite chore around the house: Dusting...uuuggghh.....
If you could take three items on a deserted island with you, what would they be: A Leatherman, water filter and sunglasses.
